

	textExtra_en	desc_en
0		My interview this evening on "Cinque Minuti", on Rai 1.
1		We are giving the Nation a strategy that it hasn't had for years, a pride that it had forgotten and a stability that is the basis of any real change possible. This is just the beginning.
2	g20	Thank you India, congratulations on the success of the #G20.
3		41 years after the brutal mafia attack which caused the death of the Carabinieri General Carlo Alberto Dalla Chiesa, his wife Emanuela Setti Carraro and the escort agent Domenico Russo, the commitment to eradicate all forms of organized crime. Our deepest thanks and respect go to General Dalla Chiesa, an example of integrity and courage, and to all the servants of the State who fell fighting to free Italy from the cancer of the mafia. Your fight is ours and we will never back down.
4		Minimum wage: press point after the meeting with the opposition.
5	giorgia's notes	Minimum wage: I will explain the critical issues and what we intend to do, also involving the opposition, to present a serious, shared proposal that truly improves the conditions of workers without harming others. #gliappuntidigiorgia
6	giorgia's notes	Taxation on banks' unfair margins. A common sense measure that allows us to help Italian families and businesses in difficulty. #gliappuntidigiorgia
7	giorgia's notes	The new rules on citizenship income are starting to come into force in recent days. It is good to clarify this topic, especially after the controversy and the many falsehoods that have been told. The Government does not intend to retrace its steps: our great objective is to move from citizenship income to employment income, the one obtained thanks to work. #gliappuntidigiorgia
8		There is nothing I want to say to those who criticize me, I think it is their right. The only way I like to answer is with results. So I act, I do what I think is right for my Nation, for the interests of my Nation.
9		Whatever the international forum, Italy will always present itself with its head held high. National interest is the only beacon that guides our action.
10		The excellent results of the mission in the U.S.A. brings great satisfaction and a renewed interest in Italy in the world. Our nations are deeply linked by common values and roots: history, culture, identity, up to commercial and industrial relations. We are determined to strengthen our cooperation in order to better address the challenges that await us.
11		Washington: statements to the press at the end of the meeting with the Speaker of the House of Representatives, Kevin McCarthy.
12		The fires and weather disasters of recent days are putting Italy to the test. The Government has deployed all the means at its disposal and we are investigating the state of emergency requests made by the affected Regions to decide on the first resources. We are working to provide immediate and effective answers.
13		Launch a shared path capable of implementing concrete measures for the growth and development of the wider Mediterranean and Africa, to address the root causes of irregular flows and to defeat the criminal activity of human traffickers. Animated by this spirit, we are honored to host the International Conference on Development and Migration today in Rome.
14		We are waiting for you in Italy, Zaki
15		Very satisfied with the Memorandum of Understanding signed between Tunisia and the EU and with Italy's fundamental role in its success. The agreement is based on five pillars: macro-financial assistance, strengthening economic relations, energy cooperation, combating illegal immigration and promoting people-to-people contacts. It is only the beginning of a path that can allow a collaboration different from that of the past, based on strong international relations that allow us to achieve common results.
16		Among the various measures we are implementing to give concrete and incisive support to the families most affected by the crisis, and in general by high prices, today we present the "Dedicated to you" card for the purchase of basic necessities. The government is there and is ready to do its part to help Italians as best as possible. My video message for the presentation press conference.
17	ecological transition	The #ecologicaltransition is important, but we cannot dismantle our economy in pursuit of it. It must be done wisely, going hand in hand with social and economic sustainability.
18		With all due respect to those who predicted catastrophes of all sorts, we are building a strong and credible nation on an international level. An Italy capable of asserting its interests and protecting the needs of its citizens.
19		World Day Against Drugs: during my speech in the Hall of Parliamentary Groups of the Chamber of Deputies, the protest of some left-wing parliamentarians in favor of legalization. Also respecting the millions of Italians who have chosen our policies with their vote, we will move forward with conviction and determination.
20		Defense of religious freedom: Italy can and must set an example.
21		Good luck to all graduates!
22		Thanks Silvio. We won't forget you.
23		The attacks never unsettled him. To those who, even today, are pouring hatred towards him, he would have responded as usual with a smile and a joke. We will remember him like this.
24		To God, Silvio.
25		Does the left accuse the government of authoritarian drift? The truth is that I'm a little short on arguments and in just over 6 months we have dismantled their entire catastrophist narrative.
26	Republic Day	Long live a democratic, free, sovereign Italy. Long live the Italy that wants to grow, innovate, amaze. Long live Italy that wants to return to being a protagonist in the world. Thanks to all the men and women who make this nation great every day🇮🇹 #FestadellaRepubblica
27		Chisinau, Moldova: my speech in the plenary session at the Second Summit of the European Political Community.
28		Believing in what we are is the most powerful fuel we can put in the nation's engine. It is the fuel we need to chart new routes and become protagonists again in Italy and in the world. Extract from the video message at the conference "Nazione e Patria. Rediscovered ideas", which you can find complete on my Facebook-Twitter profiles.
29		The center-right wins these administrative elections and confirms its consensus among Italians, its roots and its strength. My best wishes to all the mayors for good work.
30		Thanks Catania!
31	Emilia Romagna	Today in #EmiliaRomagna to see for yourself the difficult situation this land finds itself in. The task of the Government and the State, in addition to the incredible work of the Civil Protection, the Police Forces, the Armed Forces, the Fire Brigade and the Coast Guard, is to guarantee immediate responses. The first resources will be for the emergency and for all the measures necessary to exempt companies and citizens from paying taxes. We will then need to work on compensation and reconstruction: for this reason, a complete estimate and simplification of procedures will first be necessary. We are ready to do our part.
32	g7, hiroshima	The #G7 Summit in #Hiroshima, Japan was very intense. With the other Heads of State and Government I spent two days marked by many discussion sessions and bilateral meetings, which allowed us to address many crucial issues of our time. A very significant moment was the laying of a wreath at the Hiroshima Peace Memorial, where I paid my honors and due respect to the victims of the atomic bomb in World War II. I thank Japanese Prime Minister Fumio Kishida for the determination and seriousness with which he organized this important Summit and for managing a presidency in a difficult context. Next year it will be Italy's turn to host the G7, and we will do so in Puglia, a region symbolizing the meeting between West and East. It is a great responsibility for Italy, but we will be up to the task. We continue to work together, in the unity of all members, demonstrating that the G7 is strong and determined, ready to face present and future challenges, for international peace and security and for our Nations.
33		I thank Japanese Prime Minister Fumio Kishida for the warm welcome on the eve of the G7 Summit in Hiroshima. I am very happy with our Strategic Partnership which is allowing us to intensify our collaboration. We are united in our commitment to a rules-based international order, peace and stability, from science and technology to industrial cooperation and security.
34		In connection with the Civil Protection Operational Committee chaired by Minister Musumeci and the president of the Emilia-Romagna Region, Stefano Bonaccini. The Government is ready to do its part, with emergency measures, to deal with the emergency and help citizens affected by the bad weather.
35	alpines	The National Gathering of the #Alpini is one of the most extraordinary representations of what love of country is. Thanks for the welcome.
36	parents	Our history is not one of melancholy, but of great feats, creativity and results that have impressed the world. That is the Italy we want to live in again. We want to give back to Italians the certainty and pride of living in a nation capable of looking to the future, where people want to do and realize themselves. A nation in which we rediscover the beauty of becoming #parents
37		Energy, immigration, defense: these are just some of the topics I addressed during my mission to Prague with Prime Minister Petr Fiala. There is extreme dynamism and trust in the relations between Italy and the Czech Republic, and we intend to continue to strengthen them.
38		The day of dialogue with the opposition parliamentary forces was fruitful. The instability of Italian politics has caused damage to our nation, which is why I hope for the widest possible sharing for institutional reforms. We are ready to continue this path and keep the commitments made to the citizens.
39		May 1st: the Government celebrates with facts. Even today at work to improve the conditions of workers.
40		The mission to the United Kingdom was a success. The Memorandum of Understanding, which we signed with Prime Minister Rishi Sunak, represents a great achievement and crowns the excellent state of relations between our Nations. Italy and the United Kingdom are ready to actively collaborate to achieve common objectives.
41		On the Def we will keep our commitments within the set times, continuing to work to be able to provide concrete solutions to Italians.
42		The quality of Italian products is the most precious thing we have. At the Salone del Mobile in Milan I explained what we intend to do to enhance our excellence: from the fight against counterfeiting, with protection of patents and trademarks, to tools to help small and medium-sized businesses grow and the topic of training and competence. We defend the Italian brand and our companies.
43		An extremely emotional meeting with the children of the Italian "Galileo Galilei" school in Addis Ababa, Ethiopia. Thank you for your love. Always continue to believe in yourself and no one will ever be able to stop you.
44		The results of the mission in Ethiopia are excellent. There is a great desire for Italy and particular attention to our ability to cooperate in a non-predatory way, contributing to the stability of African nations, thus also defending our companies in the area and combating illegal immigration and its causes.
45	always be there	At the Pincio terrace, in Rome, to celebrate, together with the women and men of the State Police, the 171 years of their foundation. Italy is grateful and grateful for your daily commitment to defending legality and security. Thank you for #alwaysbeing there and best wishes.
46		A bill has been approved in the Council of Ministers to combat the increasingly frequent phenomena of vandalism affecting our cultural and landscape assets, adding administrative sanctions to criminal ones. Anyone who damages our artistic heritage cannot and must not get away with it.
47		Fight against drought, research and safety: important news and government measures in the Council of Ministers
48	vinitaly	The agri-food sector and the wine sector in particular represent the perfect synthesis between economy, work, health, culture, history and environment. I couldn't miss this edition of #Vinitaly, which had a massive presence of the Government. It is a sign of attention that we wanted to give to this world.
49	giorgia's notes	Investments in healthcare and strengthening of emergency rooms: here is the first part of an overall reform that we want to make so that citizens can trust Italian public hospitals again. #gliappuntidigiorgia
50		Despite the difficult moment that Italy and Europe face, over 100,000 new jobs have been created. Excellent news that pushes us to always do better.
51		Serving the Nation for 100 years. Best wishes to the Air Force 🇮🇹
52		Lots of enthusiasm and participation today at the Air Force Centenary ceremony, which demonstrates a great feeling of homeland 🇮🇹
53		Today at the CGIL Congress to vindicate the Government's actions and to reiterate that the strength of ideas does not fear comparison.
54		Whoever has governed until now has made Italian workers poorer and this Government will do everything possible to reverse the trend.
55		In the ecological transition process, the objective is to deliver a cleaner planet to the new generations, freeing ourselves from polluting means but without devastating our production system and creating more unemployed.
56		We do not intend to bow to the many powerful pressures of those who would like to impose the ideological vision of a world without national borders. Italy and Europe can no longer remain under the blackmail of unscrupulous smugglers, who use migrants as human shields for their trafficking, nor allow these criminals to decide who can arrive on our shores and who cannot. We will move forward on this because it is the only way to stop deaths at sea, protect the weakest and guarantee safety
57		We do not intend to replicate the approach of those who have let human traffickers operate undisturbed. Our response against these criminal smugglers will be even more firm and determined.
58		The point is not what role others have decided for you, the point is whether you accept it: this must make the difference. Always. Today I spoke at the presentation of the new layout of the Women's Room at the Chamber of Deputies, in view of March 8th.
59		I have heard and read some frankly surreal reconstructions about the Cutro tragedy. I'll explain what happened and what the Government intends to do. Listen.
60		It was an honor for me to inaugurate this year's Raisina Dialogue, and to do so in front of such an extraordinary audience. An audience that includes representatives from across the G20, with whom Italy shares a special responsibility to find solutions to our common global challenges. We are weathering a terrible storm that is making it difficult for our ships to navigate. But now we can make a difference.
61		I thank Prime Minister Narendra Modi for the wonderful welcome in India. A trip that coincides with the 75th Anniversary of bilateral relations between our Nations, which we have elevated to Strategic Partnership.

62		On 1 March 1961 the National Acrobatic Team was born in Rivolto. Since then, the Frecce Tricolori of the Italian Air Force have been flying over our skies with extraordinary aerobatics. Symbol of our national unity and identity, they represent an all-Italian pride. Best wishes 🇮🇹
63		The only way to prevent further tragedies at sea and stop unscrupulous smugglers and traffickers? Block departures.
64		Good evening. I present to you my interview from a little while ago with Bruno Vespa on "Cinque Minuti".
65	giorgia's notes	The era in which the State turns the other way on the legality front is over: for this reason, among the many operations on the topic, the Government has started its battle against illegal occupations. Here are some facts #gliappuntidigiorgia
66		Building bonuses: here are the Government's measures.
67		Palazzo Chigi, today. In memory of the Martyrs of the Foibe and the exiles of Istria, Fiume and Dalmatia.
68		I am very happy with the results obtained by Italy in this European Council. There were those who thought that Italian foreign policy consisted only of getting pats on the back, whereas today we have demonstrated that the interests of the nation have international relevance. First of all on the topic of migrants, where a very important principle that will change the approach has finally been put down in black and white: immigration is an EU problem and needs an EU response.
69		Press point in Brussels for the extraordinary European Council.
70		100 shares in 100 days
71		Behind the arrest of Matteo Messina Denaro there are brave men and women who worked every day giving up so much of their lives and who deserve gratitude and respect. When the State wins against organized crime we must be happy, because it means that the mafia can be defeated.
72		Today is a day of celebration for women and men who, silently, 7 days a week, 365 days a year dedicate their lives to the fight against the mafia. I want to tell them that they can count on the Government's measures to carry on this battle together.
73		A beautiful day for all of Italy. The nation is proud of you.
74		With determination and with our heads held high, we will revive Italy. Together.
75		My interview this evening on Tg5. Here you can see it again.
76		For several days some commentators and opposition members have been saying that the price of petrol would reach €2.50. However, the data tells us that this is not the case. Let's discover them together.
77		Petrol costs: here are the Government's interventions to counter possible speculation.
78	giorgia's notes	Illegal immigration and human trafficking: the end of Italy that attacks those who respect the rules and pretends not to see those who systematically violate them. #gliappuntidigiorgia
79		To you, to your families, happy 2023.
80		Jobs are created by companies and the State cannot eradicate poverty by decree. We are working to put Italian companies in a position to hire, thus promoting the growth of the entire nation. It is our commitment.
81		On Covid, the restrictive model adopted in the past did not work, as we are also seeing in China. My idea is that we need to work on empowering citizens and on prevention, rather than on the deprivation of freedoms. And I intend to continue like this in the future too.
82		In Erbil, to bring the nation's thanks to the Italian soldiers who carry out their work every day with a great spirit of self-sacrifice and sacrifice. Furthermore, I am truly grateful for the gifts with which they honored me: the Tricolor with the signatures of all the soldiers present and the magnificent mosaic of my image in which each card is made up of photographs of the Italian soldiers of the contingent in Iraq. An immense honor.
83		In Iraq to meet the Italian military contingent and send them our gratitude and Christmas greetings. Thanks to Major General Iannucci and the soldiers who gave me the camouflage and thanks to Marshal Meloni for giving me the tag with his (and my) surname, which I wore with immense pride.
84		The agreement reached in Europe on the gas price cap is a great victory for Italy.
85		This video was shot 5 years ago. But I haven't changed my mind and so I'll tell you again. It is still the time of the Nativity scene revolution.
86		Thank you ❤️ Soon "Giorgia's notes in the square", live on my social channels.
87	giorgia's notes	The Government's position on immigration always remains the same: Italy cannot be entered illegally. For the first time in Europe the topic is actually being addressed. We don't intend to give up. #gliappuntidigiorgia
88	giorgia's notes	Saturday, 5.30 pm, #gliappuntidigiorgia in Piazza del Popolo. Appointment in Rome for the event dedicated to 10 years of Fratelli d'Italia.
89		In the past we have always wondered whether there should be more or less Europe in Italy. The objective of our Government, however, is for there to be more Italy in Europe, directing the latter towards a more attentive approach to the needs of citizens, families and businesses.
90	giorgia's notes	18app: after the specious controversies of recent days, I will explain to you what we will do and why we do not want to remove incentives from culture for young people, if anything improve them. #gliappuntidigiorgia
91		The touching words of the two carabinieri who escorted a one-year-old boy in cardiac arrest to the hospital, stuck in traffic with his parents, saving his life. The emotion that shines through their testimony tells of the sense of duty and passion that many men and women in uniform use every day for the good of the community. Our gratitude to them.
92	giorgia's notes	Work can take you anywhere, while citizenship income leaves you where you are. And we have chosen to believe in Italy and Italians. #Giorgia'snotes
93	giorgia's notes	Cash limit, fight against tax evasion and unfair competition. Everything you need to know about the Government's initiatives. #Giorgia'snotes
94		Today at the Civil Protection headquarters to receive updates and stay in contact with the operational offices that are providing aid in Ischia. I renew our gratitude to the institutions, which immediately mobilized, and to all the heroic rescuers who are working incessantly to help the populations affected by the bad weather.
95	maneuver2023	#Maneuver2023
96	g20indonesia	Today and tomorrow in Bali to participate in the #G20Indonesia and important bilateral meetings. Faced with the challenges of our time, we need to dialogue and work together to find solutions to global crises.
97		After intense diplomatic work, today our compatriot Alessia Piperno was released by the Iranian authorities and is preparing to return to Italy. I want to thank everyone who helped bring Alessia back to her family.
98		The demolition of the Berlin Wall marks the decline of Soviet communism and, with it, of the totalitarian regimes that had dominated twentieth-century Europe. 33 years after that event, let's not forget the value of democracy and freedom, founding values of our identity.
99		Illegal raves: Italy is over, where some respect the rules and others don't.
100		I wanted to organize this first Government visit to Brussels to give the signal of an Italy that wants to participate, collaborate and defend its national interest within the European dimension, bringing the best solutions together with other Nations on the great challenges we are facing .
101		Today the swearing-in of the Undersecretaries. The task entrusted to them will be difficult and full of obstacles, but I am sure that they will be ready to carry out it with seriousness, commitment and dedication. For the future of Italy and Italians.
102		At the Altare della Patria, to lay a laurel wreath on the Tomb of the Unknown Soldier. We pay homage to all those who sacrificed their lives for the nation. A past to be honored and passed on to new generations, day after day, to build Italy's future together.
103		At the end of this adventure, only one thing will interest me: knowing that we have done everything we could to give Italians a better nation. Rest assured that we will not give up, we will not retreat, and we will not betray.
104		It begins. With a lot of emotion but also with the awareness of the difficult challenges that await us. Now it's our turn: we are ready 🇮🇹
105		Oath at the Quirinale
106	government	The centre-right delegation agreed with President Mattarella on the need to give the nation a new #Government in the shortest possible time. The entire coalition has indicated to the Head of State the undersigned for the formation of the new Executive. We are ready.
107		Statements after consultations with the President of the Republic
108	Brothers of Italy	Professionals, teachers, economists, representatives of the territories, administrators, men and women who will give heart and soul to defend the interests and rights of the Italian people. The #fratelliditalia team in Parliament is ready to give its all for the nation 🇮🇹
109	Brothers of Italy	Italy has chosen us and we will not betray it. #Brothers of Italy
110		September 25: I've said it all.
111		You know what to do
112	voteFdi	Those who dream of a proud Italy, those who want to return to being proud of their nation, its people and its flag, choose Fratelli d'Italia on 25 September. We are ready: now is your time. #VoteFdI
113	south	In the #South, as throughout Italy, there is a desire for real change. And we are ready to restore a future and hope to our land.
114		Now it's your turn
115	fratelliditalia, political elections2022	Favorable polls are nice but they shouldn't distract us: to win we must first complete the battles. On September 25th we need a great mobilization: we must all go and vote. The broader the consensus for #fratelliditalia, the less chance our adversaries will have of getting together after the 2022 #politelections to mess up and play palace games... bypassing, once again, the popular will.
116		Thanks Rome!
117		Piazza del Popolo (Rome) now. What a show!
118	fratelliditalia, hoax, photomontage	Do you know the latest one? Some exponents of the left and of the M5S, probably annoyed by yet another participatory square for #fratelliditalia, began to spread the ridiculous #hoax on social media that I had made a #photomontage of our demonstration in Palermo, spreading a simple image taken with a wide angle . Now who can explain to him that on my page there is, in addition to several photos, the live broadcast of my speech where the square packed with people was filmed for an hour? Evidently, it bothers some that Fratelli d'Italia has filled squares throughout Italy, from north to south. P.S. On this occasion we also dedicate these beautiful video images of the square to him 🥰
119		Bologna, handmade tortellini lesson by Patrizia and Lisa: Italian excellence and local pride. What do you think, did I get away with it? I'll get better.
120	usury	Little is said about it, but in Italy there is a #usury emergency, a phenomenon that is crushing families and entrepreneurs. Here is our commitment to help those honest citizens who have fallen victim to criminal credit
121	voteFdi	September 25th is approaching. You are ready? #VoteFdI
122		The same rules that exist on other media must apply on social networks. Freedom of speech and transparency in the management of our data cannot be questioned: we proposed it from the opposition and we will do it to the Government.
123	Basic income	Supporting the most vulnerable and giving a prospect of work and well-being to everyone else: we will leave no one behind. Here's what we want to do with #citizenshipincome. Listen.
124		I have a complaint to make. Listen carefully...
125		At the rhythm of the square. Long live Bari
126		Postcard for Michele Emiliano. Thanks Bari ❤️
127	voteFdi	Ready to protect superbonus rights and improve construction subsidies. Always on the side of businesses and honest citizens who work hard to make Italy grow and improve. Here are the proposals of Fratelli d'Italia #votafdi
128	voteFdi	Voting is simple: just cross the Fratelli d'Italia symbol. We are ready to lift Italy up, now it's your turn. #VoteFdI
129	Brothers of Italy	I will be clear once again: there is no possibility that #fratelliditalia will go to Government with the Democratic Party. We fight their hegemony of power and it certainly won't be absurd journalistic reconstructions that will change our minds.
130		Let's clarify (once again) our position regarding the law on abortion. Enough lies!

131		The more the desperate attempt to demonize us continues, the more many free people will side with us. Thank you! ❤️
132		Now in Genoa!
133		“Brothers of Italy has no strong personality for a future government” the left repeats daily. Their Foreign Minister in a very delicate phase for Italy and the world
134		Right-wing government dangerous for voters? No dear Enrico, the only danger is for the power system of the left.
135		Next September 25th, very little is needed to vote
136		Thanks Turin!
137		Beautiful welcome in Turin
138	volleyball, italyvolley	Phenomenal. Congratulations to the boys of the Italian #volleyball team for the great victory at the World Cup against Poland. Italy is proud of you! 🇸🇰🇮🇹 #italvolley [Rai images]
139	abortion, fratelliiditalia	Our position on the law on #abortion. Enough falsehoods from the left against #fratelliditalia.
140		Thanks Mestre!
141		What a splendid square!
142		What a show yesterday in Florence for Fratelli d'Italia 🇮🇹
143		Enrico, sleep peacefully.
144	energy crisis, bills, families, businesses, work	Ready to intervene on the cost of energy. We are in the midst of an #energy crisis, with #bills now unsustainable for #families and #businesses. Our entire productive fabric is in danger, with thousands of companies and #jobs at risk. We need to intervene immediately. Here are our proposals
145		Incredible: in the official PD program they talk about me. How can you present your proposals to Italians and talk about your opponents? It makes you laugh, but it also makes you think a little...
146		Kenta you're right
147		When I meet a cat, the cat lady instinct always takes over
148		They are afraid of our victory and are trying everything to stop us. But our shoulders are broad, because you are there to support us. On September 25th let's demonstrate together that there is no power stronger than that of the Italian people.
149		Thanks Perugia!
150		What a welcome here in Perugia!
151		A just state cannot put those who can work and those who are unable to do so on the same level of welfare. A just state cannot tell our children to stay at home because there is no need for them. We desperately need the young people of our nation, we need to believe in them and make them believe in themselves. We will leave no one behind.
152		We will continue to fight with all our strength so that Chico Forti can soon return to Italy. We owe it to him, to his daughter and to all his loved ones.
153		Despite the rain, even in Pescara there were many people in the square listening to the programs of the Brothers of Italy to lift up the nation. Thank you!
154		Our tour continues to talk about the Fratelli d'Italia programs. See you in Termoli and Pescara.
155	Cosenza	Thank you #Cosenza!
156		Cosenza now! Follow the live broadcast on my Facebook page
157		On the surface they seemed like pseudo-revolutionary daddy's boys intent on tearing up an electoral poster of the Brothers of Italy for fun. In reality, simply by playing the video backwards, they are some good guys who are hanging up a slightly bent poster of mine. Thanks guys, an example of education and respect towards others. On September 25th we will win for you too 🙏
158		Ready to defend the environment and the beauty of our land. While the left talks about ideological manifestos, we will address environmental protection in a serious, coherent, free and innovative way, without prejudice towards economic development and new technologies. Starting with the defense of the natural asset par excellence: water.
159		Special welcomes
160	catania	Thank you #Catania!
161		Catania now! You can follow the live broadcast on my Facebook page.
162		Ready to protect the home of Italians. The house is the primary asset around which people build their future. Fratelli d'Italia will approve a law that will say one simple thing: the first house cannot be seized, except obviously for non-payment of any mortgage loan weighing on it and in the event of prolonged arrears towards the condominium. And we will also approve another law which provides for the immediate eviction of illegal occupations of other people's homes
163		When Luigi Di Maio and Enrico Letta throw mud at their opponents in foreign newspapers, they are not doing an injustice to the Brothers of Italy and the center-right, but to the whole of Italy. On September 25th, let's show them that this nation can still rise again, that it can still amaze the world again. Let's not give it away to people who, in order to govern, are willing to do so on the rubble.
164		Ready to protect our pets. "The civilization of a people is measured by the way in which they treat animals" said Ghandi. Among the initiatives already launched in this legislature is the tightening of penalties for those who mistreat, poison and abandon them. We also want to launch campaigns on respect of animals in schools, stop the illegal trafficking of 300,000 puppies from Eastern Europe and expand pet therapy activities in nursing homes and hospitals.
165	votefdi	There are those who talk and there are those who do. There are those who depend on someone to whom they owe something, and those who depend only on the citizens with whom they have committed themselves. Fratelli d'Italia is made up of free people. We have no masters: this is why the left is afraid of us. We are ready to revive Italy. #VoteFDI
166		Ready to restore strength to the popular will. The direct election of the President of the Republic would represent the most powerful economic measure Italy needs. The current system has led us to have 11 governments in 20 years, making the nation unstable and not very credible: the one that has grown the least of all in Europe. Italians have the right to elect the Head of State and directly choose who to govern themselves by. Enough with top-down governments and enough with P's games
167		Ceglie Messapica: panzerotti lesson
168		Ready to protect self-employed workers. Fratelli d'Italia has always fought for the introduction of universal shock absorbers, the same for everyone. We want to establish a tool that also guarantees self-employed people, in the event of closure of their VAT number, an unemployment benefit. A tool based on the same Nاسpi rules as for employees. Always on the side of those who work, in whatever form they do it.
169		Ready to give concrete support to families. Fratelli d'Italia proposes a paradigm shift in the tax system that takes into account the composition and characteristics of families: the so-called "family quotient". It is one of our legislative objectives, but we will do something with a great impact immediately: we will increase the single universal allowance by 50%, which will thus reach a maximum of 260 euros per month per child. Because children are our future and the family is the nucleus
170		Ready to restore security to our cities. Streets, squares and entire neighborhoods are completely abandoned to decay and removed from the control of the state by criminal organizations and the mafia. We need to intervene immediately: we will relaunch and strengthen the "Safe Roads" operation and redevelop the suburbs, because every light turned on and shutter raised are safeguards of legality. Italians also pay taxes for their security and it is the state's duty to guarantee it.
171	ancona	Thank you #Ancona!
172		The left's delusional mystifications against me continue. Listen to what they came up with this time...
173		Ready to support businesses that create jobs. In Italy taxes on labor are too high. We need to reduce the tax wedge and increase workers' paychecks. As? By making the State pay - under certain conditions - part of the social security contributions paid by the company and the worker. And we need to do more: reward companies that hire, according to the principle of "the more you hire, the less taxes you pay", starting from a mechanism of super deduction of the cost of labor for those who increase the number of employees compared to previous years.
174		Ready to enhance sport and healthy lifestyles. How many young people fall victim to deviances such as drugs, alcohol, spirals of violence, when they are left alone? The strongest antidote is sport. Investing in the "right to sport" means investing in the future, cultivating talent, fighting drugs, raising new generations of Italians full of those values that only sport can offer and transmit.
175		Agriculture is the example par excellence of the real economy. We possess a heritage of typicality, quality, food safety and care of the territory which must be valorised. We must protect our products and Made in Italy, preventing the introduction of absurd classification systems such as the Nutri-score, designed only to target our agri-food excellence, and forcefully combating the unfair competition of Italian sounding, fake Italian products . Our land is our true wealth.
176	madeinitaly, taxes, freedom	Ready to defend those who do business by respecting the rules. Small and medium-sized Italian businesses represent the backbone of our nation and the custodians of #madeinitaly. But the left has treated entrepreneurs, traders and the self-employed as tax evaders regardless, to be fought and harassed with #taxes and bureaucracy. We want to give them back their dignity and the #freedom to do business, to create work and wealth. Let's start by saying enough to illegal practices and unfair competition from "open and close" businesses, often foreign. Anyone who wants to come to work in Italy is welcome, but anyone arriving from outside the European Union, before opening the shutter, will have to present a surety to guarantee the payment of taxes. So that everyone can compete on equal terms.
177		Will they ever be able to discuss the issues without having to take refuge in daily attempts to demonize their opponent? Well done Guido
178	income, citizenship, work	Ready to fight poverty by investing in work. The #citizenshipincome, which cost the State 9 billion, has completely failed as a tool to fight poverty and as an active #work policy measure. For this reason we want to replace it with a tool to protect truly fragile subjects: disabled people, those over 60 and families with dependent minors who have no income. A citizen who can work must be helped to find a job, because the only way to truly defeat poverty is through work, not state welfare.
179		
180	fratelliditalia, French, English, Spanish	For days in the international press we have been reading articles in which #fratelliditalia is described as a danger to democracy, to Italian, European and international stability. Obviously nothing true. To this narrative, inspired and fueled by the left, I decided to respond with a video that I recorded in #French, #English and #Spanish (I don't venture into German 🤔) to better explain who we are and what we want to do. So anyone who really wants to delve deeper, and not be fed by our adversaries, will be able to do so. Those on the left who continue with this narrative will not damage me or Fdi but the whole of Italy. And he will take responsibility for it. Ps. The video has already been sent abroad in the full version in a single language depending on the country. We made a collage for you... 🙏
181	young people, work?, hoax	Artificial intelligence and sanctioning system to register our #young people who enter the #job market? Nothing real. Listen to yet another #hoax from the left.
182	centre-right, fratelliiditalia	I don't accept the story that those who are not left-wing are worthless, that #centre-right voters are illiterate. You don't need a party card to deserve something and I want to restore pride to all those people who, for years, had to hide in order to get where they wanted. #Brothers of Italy
183		5 years have passed since the Trieste congress. Since that day they have given us up for defeat, for doomed, several times. Yet here we are: ready as never before to give a future and hope to our nation. Come on Brothers of Italy 🇮🇹
184	democracy	Voting is not "irresponsible", it is the basis of #democracy. And we are ready.
185		Porro to Letta: "Does Meloni give you shivers? Because, evidently, you risk losing in the elections" 🙏
186	iusscholae	Scoop from the left: "8 years ago Meloni said she agreed with the #iusscholae while now she is voting against it". It's a shame, however, that, once again, they were unable to understand a simple text. I'll try to explain it to him again.
187	elections	The data from these elections force us to bring Letta back to planet earth. If the Democratic Party is so sure of having won these administrative elections, then it must have the courage to immediately face the political #elections. The Center-Right must return united and compact to win the great challenges that await us.
188	school, maturity, exam	We're back in #school, but this time it will be the last. With the #maturity exam, not only an educational journey ends, but also a life journey, made up of emotions, fears and feelings. This #exam will mark your transition to adulthood and to you - girls and boys who will face this important moment - I wish you the most sincere good luck. Strength, determination and courage: tomorrow is yours, live it intensely.
189		My response to La7's insults
190		After the great result of FDI in the administrative elections, punctual like clockwork, the ideological paraphernalia of the left against us begins. They will continue undaunted in their desperate attempt to stop us, but as long as the Italians are with us they will not have won. Because there is no power stronger than the Italian people. PS: the Democratic Party's foreign affairs director accuses us of being "financially supported by Russia". I DEMAND to know from Enrico Letta whether he agrees with these statements.

191	Basic income	The entirely Italian paradox is that a twenty-year-old boy, who could work, can get up to €780 of #citizenshipincome and a disabled person, however, a pension of €270. Does this seem normal to you? Young people must be able to work to participate in the growth of their community: wealth is not built with a decree, wealth is created by workers and companies
192	Viterbo	Thank you little ones ❤️ #viterbo
193	bocelli	With the great Maestro Andrea #Bocelli, Italian pride 🇮🇹
194	2 June, Republic Day, Bersaglieri	Long live Italy 🇮🇹 #2nd June #festadellarepubblica #bersaglieri
195	Messina, Sicily	Warm welcome in #Messina #Sicily
196	fratelliditalia, boldrini	According to the "democrat" Laura Boldrini, #fratelliditalia would not have the right to govern even if it won the elections. Listen until the end: in a few minutes I will respond to #Boldrini and show you the true face of the Italian left.
197		You will find us ready and with our heads held high. We will challenge you and beat you with a smile and the pride of our ideas.
198	fratelliditalia, right	While some journalists have used their time to pass off #fratelliditalia as a party of unrepresentable people, we have built a serious, credible, modern, respected #right that has not allowed itself to be pushed into a corner. Let them continue telling fairy tales, in the meantime we'll make history.
199		Thank you guys!
200		Italian patriots chart the course of the conservative program. Long live the Brothers of Italy, long live the Italy that does not give up! 🇮🇹
201		Europe presented itself at the rendezvous of history without a defense, without a foreign policy, incapable of carrying out any diplomatic action. American interference is a European choice and it is a wrong choice.
202	energytoliberate	Freedom? In the last two years it has been sacrificed due to the incompetence of a certain political class. It's time to say enough. #energytoliberare
203	energytoliberate	The only reason why we want to get to the top is because from there we know we can look further. #EnergyToLiberate
